ULTIMATE SIZE

Quadra has specialized in the design and manufacturing of **extra-large slabs** for high-end **interiors** and **exteriors**.

The choice to focus on extra-large tiles has made Quadra a **benchmark**, an impeccable manufacturer of **majestic walls** and **flawless floors**, as well as **luxurious furniture**. Stunning results achieved thanks to the most innovative Italian technologies and finest European raw materials, at the service of brilliant creative design.

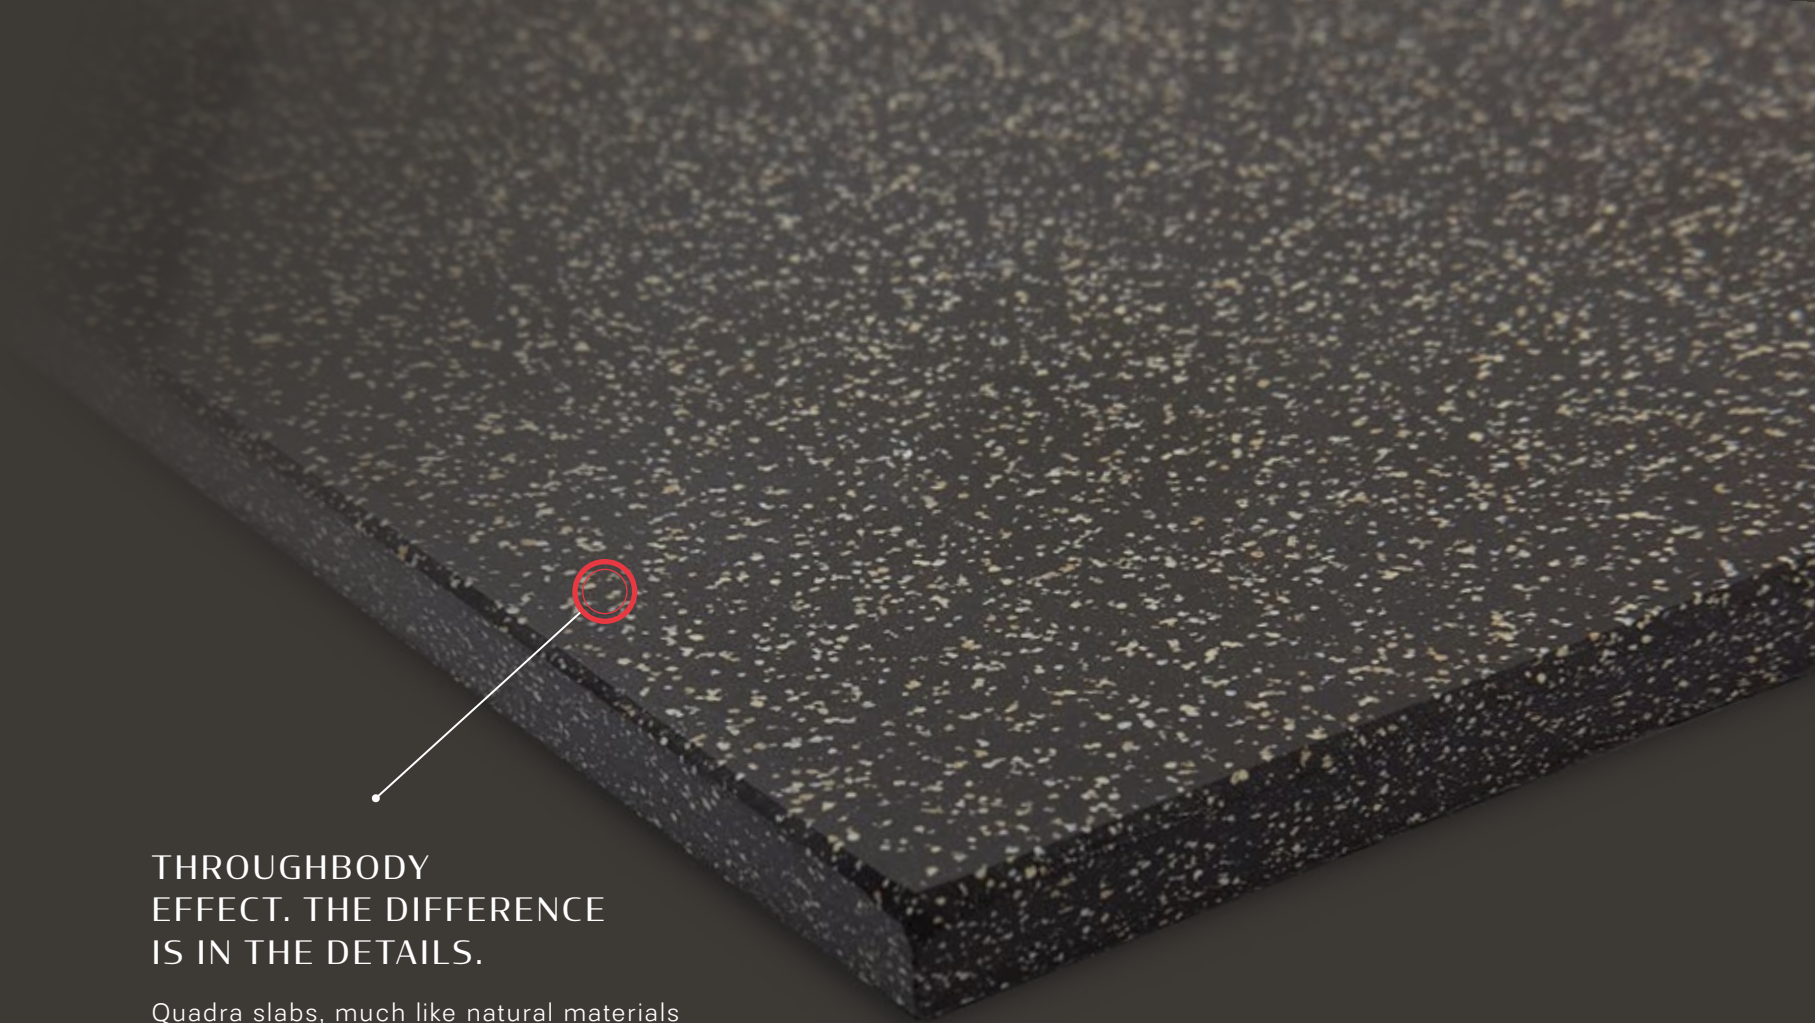

BREATHTAKING ENDMATCHED AND BOOKMATCHED CONFIGURATIONS

Thanks to its sophisticated **digital technology**, Quadra provides both **end-matched** and **book-matched slabs configurations**, achieving extraordinary aesthetic harmony in any setting. Such a feature is often expensive and generally hard to accomplish with natural materials; yet another **great reason for architects and designers** to choose Quadra.

ULTIMATE DESIGN SURFACE

Quadra designs prestigious, **extra-large, sintered stone slabs** for sophisticated, **high-end** buildings. On a quest to elevate environments, matching luxurious settings to an elegant lifestyle, Quadra employs the most reliable **European raw materials**, combining rigorous techniques of timeless tradition to the latest **Italian technologies** and quality assurance processes. The final product is a masterpiece of the utmost refinement.

ULTIMATE QUALITY

Quadra is at the forefront of a **technological innovation process** rooted in centuries-old traditions: from the cutting edge blending of materials and super-compacting techniques to the unified “sinterization” revolution and the art of 3D digital dry decoration printing.

3D DIGITAL
DECORATION PRINTING

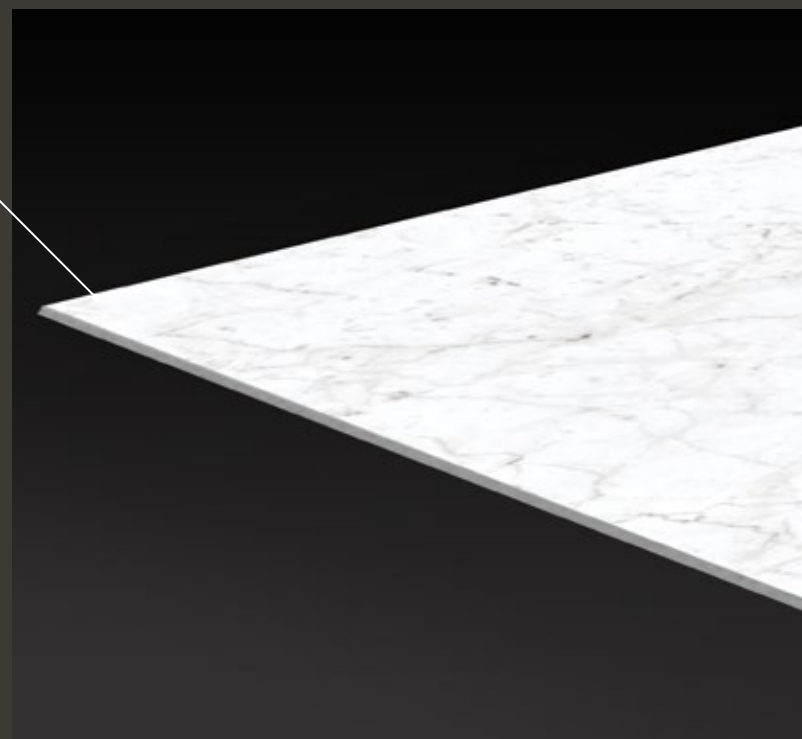

SURFACE TEXTURING
TECHNOLOGY

UNPARALLELED,
SUSTAINABLE FLATNESS

Quadra slabs are **utterly flat**, with just 12 mm of thickness, thanks to highly innovative technological processes and top quality, thoroughly compacted raw materials. **Absolute slab flatness is a real game-changer** compared to natural materials and stones because of the lighter the product the lower the transportation costs and emissions of CO2.

THROUGHBODY
EFFECT. THE DIFFERENCE
IS IN THE DETAILS.

Quadra slabs, much like natural materials and stones (if not better), maintain the **same color and granularity throughout the whole body**, not just on the surface. The result is **unmatched realism in marble, wood, and concrete effects**, with the coherence of shade on the surface as well as the sides of the product, accomplishing perfection for applications in countertops, steps and wherever details make the difference.

ULTIMATE TECHNOLOGY

From surface texturing technology to the recreation of surface gloss variations, or surface polishing, Quadra employs **revolutionary methods** to achieve **absolute perfection of design**.

HIGH-TECH
MATERIALS BLENDING

UNIFIED SINTERIZATION

ULTIMATE FINISHING

A collection of refined surface finishes elegantly emulates a selection of natural materials.

SHINY POLISHED SURFACE

High-gloss finish featuring a naturally buffed, mirror-like surface, identical to natural polished stone.

SHINY POLISHED

MATTE POLISHED SURFACE

A moderately shiny honed surface, exuding a subtle, refined look.

MATTE POLISHED

MATTE SURFACE

A natural, non-polished surface that absorbs light, achieving a very consistent color and tone transition.

MATTE

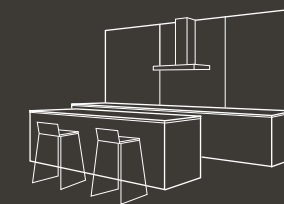

MATTE STRUCTURED SURFACE

A slightly textured surface. Emulating the authentic characteristics of natural stone.

MATTE STRUCTURED

ULTIMATE VERSATILITY

Impeccable levels of **quality** and **reliability** are achieved thanks to a combination of the most innovative Italian technologies, the finest European materials, creative design, and rigorous standards of quality control, resulting in a **prestigious selection** of majestic walls, stunning floorings and luxurious furniture.

8 REASONS

TO CHOOSE QUADRA

1

MASTERPIECE DESIGN SURFACE

Numerous products are directly inspired by Mother Nature, with varying degrees of similarity, but always in the pursuit of timeless beauty and absolute perfection, a standard that Quadra has attained through masterful craftsmanship. The complex techniques employed convincingly transform surfaces into seemingly authentic stone, marble, quartz, and concrete, as well as wood, metal, and anything else one can imagine.

2

EXTRA LARGE SIZES

Extra Large formats with a thickness of 12mm.

SLAB SIZE

> 320 x 160 cm
> 240 x 120 cm

SQUARE SIZE

> 160 x 160 cm
> 120 x 120 cm

3

NON-POROUS SURFACE

Quadra is an ultra-fine man-made stone manufactured by reflecting the same combination of pressure and heat from which stone originates in nature. The process is known as "sinterization", a cutting-edge, highly innovative Italian-designed, technological revolution. It consists of fusing stone particles until they become unified material, with no pores left for moisture, stains, or dirt to enter.

4

MAXIMUM STRENGTH & DURABILITY

The sinterization process makes Quadra durable and strong on many different levels: its non-porous surface makes it resistant to weather and staining, while the qualities gained from the fusing process make it resistant to chemicals, scratching and even fire. Moreover, Quadra's distinctive super density grants unparalleled structural strength both in length and width.

5

LOW MAINTENANCE

Quadra is non-fading or staining, and as such it does not require polishing or coating, contrary to most stone, concrete, marble and wooden surfaces. Quadra's non-porous surface means dirt is unable to accumulate in surface pores commonly found on stone and wood.

6

AVAILABILITY ASSURANCE

Quadra is readily available, meaning projects are not to be held up by the same waiting periods experienced when ordering certain natural stone or wood products. Moreover, unique random digital patterns and size consistency are guaranteed.

7

DIVERSE INSTALLATION METHOD

Quadra's 12mm thickness is compatible with two kinds of installation methods: it can either be attached or vertically hung to metal inserts, the same way glass curtain walls are hung. Quadra's inherent strength makes it structural in its own right, as with table tops, etc.

8

ENVIRONMENTALLY SUSTAINABLE

Quadra was created with an environmentally friendly mindset: the factory runs on natural reserved water, using natural gas and producing close to no waste. The product itself is lighter than conventional stone, allowing for less consumptions during transportation and a considerably lower deployment of energy during installation, ultimately leading to lower CO2 emissions.

ULTIMATE MARBLE

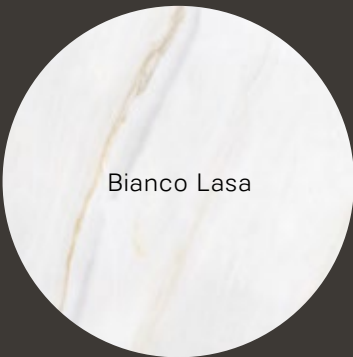

TIMELESS LUXURY

The elegance of marble fascinates, its timeless beauty seduces. Quadra selects the most refined natural varieties in the world and recreates them with astonishing realism. Futuristic technology emulates nature, replicating distinctive veins, elegant transparencies and enchanting shades of color.

Admitted deviation, in % of the average thickness of each piece from the production dimensions	ISO 10545-2	± 5%	± 5%
Maximum straighness deviation, in %, in relation to the corresponding production dimensions	ISO 10545-2	± 0,5%	± 0,1%
Maximum right-angle deviation, in %, in relation to the corresponding production dimensions	ISO 10545-2	± 0,5%	± 0,2%
Flatness (Curving in the middle, corner and warping)	ISO 10545-2	± 0,5%	± 0,2%
Surface quality	ISO 10545-2	At least 95% of the pieces must be free from visible flaws	Conforming
% Water absorption	ISO 10545-3	< 0,5%	< 0,1%
Breaking strength in N	ISO 10545-4	³ 1.300	> 2.000
Flexural strength test (MOR) in Kg/cm²	ISO 10545-4	³ 350	³ 400
Resistance to abrasion of glazed pieces	ISO 10545-7	See manufacturer's declaration	Class III-V
Thermal shocks resistance	ISO 10545-9	Requested	Resistant
Glaze carzing resistance	ISO 10545-11	Requested	Resistant
Frost resistance	ISO 10545-12	Requested	Resisten
Resistance to low concentrations of acids and alkalis	ISO 10545-13	See manufacturer's declaration	GLB
Resistance to domestic chemical products and additives for swimming pools	ISO 10545-13	Class B min.	GA
Resistance to staining	ISO 10545-14	Available testing method	Class III
Relase of hazardous substances	ISO 10545-15	Declare valure for GL surfaces used on worktops	Absent

The colours illustrated in this brochure are produces near to the actual colors. Slight variations of shades/colours and surface finishes are inherent due to the nature of production process. Inspect before installation.
